The Company has been continuously incurring losses over last several years and its net worth stands fully eroded. Due to a slackness in demand by user industries, lack of working capital funding and volatility of aluminium price the Company was/is not able to utilize it's production capacity optimally. The management feels that the demand would revive considering various incentive packages announced by the Government. The management also expects to convince the lenders ,who have approached the NCLT for recovery of their dues, for a pre-accepted resolution plan. Accordingly, the management expects to arrive at a settlement with lenders in due course of time and believes that it is appropriate to prepare the financial statements on a going concern basis
